GymSync

Business Model & Go-to-Market Strategy

GymSync

The Onboarding & Member Intelligence Platform for Indian Gyms

Tier 2 & Tier 3 City Focus · B2B SaaS · AI-Powered

The Market Opportunity

India's fitness industry is one of the world's fastest-growing — and it's massively underserved by software

Gyms in India

69%

Are Tier 2/3 Gyms

The Gap Nobody Has Filled

66,000+ Tier 2/3 gyms manage members on WhatsApp & paper. Global SaaS tools cost ₹6,600–₹16,000/month — 5× above what these gyms will pay. Indian tools exist but lack AI. **GymSync is built exactly for this gap.**

What GymSync Does

A complete AI-powered onboarding & member intelligence platform — 6 core capabilities

Branded Onboarding Portal

Each gym gets [gymsync.com/their-name](#). A beautiful 6-step mobile form members actually enjoy.

AI Meal Plans (GPT-4o)

Personalised 7-day Indian meal plan generated instantly per member from their profile data.

Trainer Brief PDF

One-page AI summary with upsell signal, red flags, and conversation starters — ready before session 1.

Auto Email Sequences

Welcome + Day 3 check-in + Day 7 push + Day 30 review — all automated, no manual work.

Admin Dashboard

Full member table with filters, health flags, email status tracking, and expandable profiles.

Upsell Intelligence

AI scores every member HIGH/MEDIUM/LOW for PT upsell likelihood based on their goals & commitment data.

The Customer & Their Pain

The average Tier 2/3 gym owner — managing 150–400 members with zero software

Customer Profile

- ✓ Independent gym owner, Tier 2/3 city
- ✓ 150–400 active members
- ✓ ₹8,000–14,000/year average membership fee
- ✓ Revenue: ₹15–50 lakh/year
- ✓ Staff: 2–5 people (owner + trainers)
- ✓ Current stack: WhatsApp + paper register

Top Pain Points

- ⚠ **30–50% annual member churn**
Biggest revenue leak; costs 5× more to replace
- ⚠ **No automated follow-up**
Members drop off silently — no early warning
- ⚠ **Manual onboarding = bad first impression**
Paper forms, WhatsApp intake, zero personalisation
- ⚠ **Trainers start sessions blind**
No health history, goals, or injury info ready
- ⚠ **PT upsells missed daily**
No system to identify who is ready to buy more

Competitive Landscape

No one owns the Tier 2/3 Indian gym market — the gap is wide open

Competitor	Monthly Price	AI Features	Indian Focus	Verdict
Mindbody (USA)	₹8,300–14,000/mo	Basic	❓ No	Too expensive
Glofox (Ireland)	₹8,300–16,000/mo	None	❓ No	Wrong market
FitBudd (USA)	₹6,600–10,400/mo	Basic	❓ No	PT-only focus
FitGymSoftware (IN)	₹1,500–10,000/mo	None	❓ Yes	No AI, legacy UX
Local spreadsheets	Free	None	❓ Yes	No automation
GymSync	₹2,499–9,999/mo	Full AI	❓ Built for it	🔪 The answer

GymSync is the only solution with full AI, Indian pricing, and Tier 2/3 city focus.

Revenue Streams

Multiple ways to monetise — starting with subscriptions, expanding into usage and affiliate revenue

CORE

1. SaaS Subscription

Starter ₹2,499/mo — up to 50 members

Growth ₹4,999/mo — up to 200 members

Pro ₹9,999/mo — unlimited, white-label

USAGE

2. AI Plan Regenerations

Members evolve — plateau, injury, goal change

Sell credit packs to gyms: ₹49–₹99 per regen

Growth tier includes 50 credits; Pro = unlimited

TIER GATE

3. Hot Leads Upsell Intel

AI already scores every member
HIGH/MED/LOW

Gate 'Hot Leads' dashboard behind Growth/Pro

Helps gym sell PT packages = direct owner ROI

PRO

4. White-Label / Custom Domain

Remove 'Powered by GymSync' branding

Custom domain (theirgym.com/onboard)

Premium gyms & chains will pay ₹9,999+/mo for this

AFFILIATE

5. Supplement Affiliates

AI already suggests supplements in meal plans

Embed MuscleBlaze / MyProtein referral links

Gym gets 5%, GymSync gets 5% per purchase

ROADMAP

6. Workout Plan Generation

Natural second AI output (data already collected)

Gate at Growth+ tier as key differentiator

Increases platform stickiness dramatically

Pricing Tiers — What's in Each Plan

Clear feature gates drive upgrades. Plans must be enforced in code, not just UI.

Starter

₹2,499 /month

Up to 50 members

- ✓ Branded onboarding portal
- ✓ AI meal plan per member
- ✓ Auto email sequences (30-day)
- ✓ Google Sheets sync
- ✓ GymSync branding visible

MOST POPULAR

Growth

₹4,999 /month

Up to 200 members

- ✓ Everything in Starter
- ✓ AI workout plans (roadmap)
- ✓ Trainer Brief PDFs
- ✓ Hot Leads upsell dashboard
- ✓ Follow-up sequence customisation
- ✓ Priority support

Pro

₹9,999 /month

Unlimited members

- ✓ Everything in Growth
- ✓ White-label (remove branding)
- ✓ Custom domain
- ✓ Plan regeneration credits (unlimited)
- ✓ Analytics & benchmarking
- ✓ API access + dedicated support

✂ Priority: Enforce member caps in code — the upgrade wall IS your conversion engine.

Unit Economics — Can This Business Work?

A conservative model showing the path to ₹1 Cr ARR and beyond

Month 6

25 gyms

₹1.0L/mo

₹12L ARR

Mix: 15 Starter + 8 Growth + 2 Pro

Month 12

80 gyms

₹3.6L/mo

₹43L ARR

Mix: 45 Starter + 25 Growth + 10 Pro

Month 18

200 gyms

₹9.2L/mo

₹1.1 Cr ARR

Mix: 110 Starter + 65 Growth + 25 Pro

The Gym Owner ROI Argument — Why They'll Pay

- ✓ A Tier 2 gym with 250 members at ₹10,000/year = ₹25L revenue
- ✓ 30% annual churn = 75 members lost. Retaining just 5 more = ₹50,000 saved
- ✓ GymSync at ₹4,999/mo = ₹60,000/year. Saves 5+ members = self-funding on day 1

Go-to-Market Strategy

Direct outreach → demo-led conversion → viral distribution through member-facing branding

01

Direct Outreach

Months 1-3

- › Target: Instagram gym accounts in Tier 2/3 cities
- › DM owners with 'your members get a personalised meal plan in 5 minutes' hook
- › Offer 14-day free trial, no credit card

02

Demo = the Close

Months 2-4

- › Live demo: owner sees their own member fill the form
- › 5 mins later, branded PDF arrives in member's inbox
- › That moment is worth more than any sales pitch

03

Organic Viral Loop

Ongoing

- › 'Powered by GymSync' on every member form
- › Every member across all gyms sees it — some own gyms
- › White-label upsell converts the embarrassed premium gyms

04

Retention = Referrals

Month 6+

- › Happy gym owners refer other owners (tight community)
- › Add a referral programme: 1 month free per new gym signed
- › Target gym owner associations & fitness communities

What to Build Next — Prioritised

The order of implementation that maximises revenue impact for each hour of dev time

#1	Plan Enforcement + Upgrade Wall Member caps must be enforced in code. When a Starter gym hits 50 members, block new submissions and show an upgrade prompt. This is your conversion engine.	Dev: 2–3 days Impact: Critical	IMMEDIATE
#2	Hot Leads Dashboard Surface members flagged HIGH for PT upsell. The upsellSignal is already in your TrainerBrief schema. Build a filtered tab showing uncontacted high-signal members.	Dev: 3–4 days Impact: High	GROWTH
#3	Workout Plan Generation All the data is there — experience level, days available, equipment, injuries. Add a second AI output alongside the meal plan. Gate at Growth+ as the hero feature.	Dev: 4–5 days Impact: High	GROWTH
#4	Plan Regeneration Credits Let gym owners trigger a new meal/workout plan for evolved members. Sell credit packs or bundle into tiers. Adds a consumption revenue layer on top of subscriptions.	Dev: 2 days Impact: Medium	PRO
#5	Supplement Affiliate Links Embed MuscleBlaze/MyProtein referral links in the meal plan email. supplementSuggestions is already generated — just add tracked links. Passive revenue stream.	Dev: 1 day Impact: Medium	PASSIVE

The Opportunity in One Sentence

66,000 Tier 2/3 gyms. No good software. GymSync is the AI-first answer.

Solves the #1 pain: member churn & retention

AI differentiates it from every Indian competitor

Priced for the market — ₹2,499 to ₹9,999/mo

Multi-stream revenue: subscriptions + usage + affiliates

'Powered by GymSync' on every form = organic growth

Path to ₹1 Cr ARR in 18 months with 200 gyms
